

The diagram illustrates a geological profile with several distinct layers and structures. Key features include:

- Lenta Cova in argilla e sabbia (Aut. L. 3702/20)**: A layer near the top right.
- Lenta Cova in calcareo**: A layer below the previous one.
- Faglia di Valsugana**: A fault line running diagonally across the middle.
- Faglia di S. Maria**: Another fault line located further down.
- Lenta Cova in calcareo argilloso**: A layer towards the bottom left.
- Lenta Cova in calcareo**: A layer at the very bottom left.

The orientation is indicated by 'N' at the top and 'S' at the bottom.
